*Teach the child the right path and he will remain upon it (Book of Proverbs)*

### TO WHOM IT MAY CONCERN

Dear Sir/Madam,

I, am ecstatic to announce that our Early Childhood Development has been endorsed by Winds of Change, Cape Capsules, Cape Surf School – Go Surfing and Cape Pizzeria for sponsorship and volunteer assistance. The news has brought a sense of hope and relief to me as an ECD owner, and I'm sure it will be a game-changer for the disadvantaged children under our care.

As you may be aware, our ECD provides a valuable service to previously disadvantaged children who are still poor and in need of guidance and help. However, due to limited resources, we've been unable to meet all their needs, which affects their academic growth and overall wellbeing. With your support, we can tackle these challenges and provide the children with the care and support they so desperately need.

Your sponsorship and volunteer assistance will help us improve the children's quality of education, provided them with nutritious meals, and create a safe and positive learning environment. We believe that early childhood education is fundamental and lays a crucial foundation for a child's future academic success, Hence, it is essential to invest in the children's education at the tender age of two and three years.

We will be glad to have volunteer (via Winds of Change) who willingly assist the staff to learn more about the needs of these young children and disadvantaged communities they come from. With your expertise in the industry, we have no doubt that you will provide immense value to these young learners.

Once again, thank you for your generous support, endorsement, and *volunteer\* help*. With your support, we look forward to making a positive impact on the lives of these young children and the surrounding community.

Sincerely,

**Mrs. Marguerita Benjamin**

**Principal**
